of

may 9th, 2020 - the incisal
foramen is located in the
premaxilla which is the
intermaxillary bone in humans
that was first described by
félix vicq d azyr in 1780 and
not by goethe in 1784 as had
been falsely assumed in the
mostly one chambered incisal
foramen we found very different
diameters figs 1 and 2 in which
two incisal nerves were situated
in rare cases a two chambered
incisal foramen was found'
