Certification MCITP Windows Server  
2008 or MCSE**

May 7th, 2018 - Katflp wrote I am very  
tempted to go the route of 2008 1st then  
take that upgrade test for 2012 I realize that  
means 1 extra test so 150 more to pay but I  
also have in mind that I have the full 2008  
training kit already and boning up on  
Server 2008 would be extremely helpful for  
me for day to day use again my company is  
slow to change'
